Subject: FOIA Request

I am officially Submitting this Question under the Freedom of information act.

On January 31, 2014 at 2:55:20 pm CST i submitted the following FOIA request.

"Mr Dotson

I would like to submit the following FOIA request.

Any emails sent or received by Mr David Stachura the entire day (24 hour period) of January 31st 2014. Answers can be digital or what ever is easiest. Thank you in advance.

Jeremy"

I received a response to my FOIA request on February 6th, 2014. In that response there was an email sent to Dave Stachura fulfilling his request to see my original FOIA. It was dated January 31, 2014 12:43:17 PM and contained my Request as an attachment. Approximately 40 minutes later on January 31, 2014 @ 1:24:05 PM Mr Stachura forwarded the email sent to him from Katherine Brant with my attached request to what appears to be his personal E-Mail account.

I am requesting that he share a copy with me and the district of the email address and email he then forwarded it to from his personal account. It concerns me greatly what the reason could have been for this to be forwarded to his out of district personal email address when it was clearly district business. If he has privacy concerns about this request I am then requesting he share with the rest of the school board members where the email he forwarded to his personal account then went to and redact it accordingly for my viewing. Electronic copies of this are preferred.
